

Lochsa Interior Rainforests & Coastal Disjunct Species

Dr. Paul Alaback University of Montana
Professor Emeritus of Forest Ecology
will guide walks in the Lochsa Research Natural Area,
to discuss rare inland temperate coniferous rainforests,
compare drier surrounding Northern Rockies ecosystems,
& explore the ecological processes, plant distribution, & biodiversity
of isolated low-elevation old-growth forests in Clearwater valleys,
which support dense & numerous regionally endemic plants.

**Saturday
October 16
7 am to 7 pm**
Carpool from
Eastside Marketplace
south lot in Moscow

Visit www.whitepineinps.org for field trip information

Co-sponsored by White Pine Chapter of the Idaho Native Plant Society, Friends of the Clearwater,
Palouse Group of the Sierra Club, & Great Old Broads for Wilderness Palouse Broadband
