

Native Flora Workshop

March 23 – 24, 2010

Idaho State University, Wood River Room, Pocatello, Idaho

Sponsored by Idaho Native Plant Society, Sah-Wah-Be chapter; Idaho Museum of Natural History, Ray J. Davis Herbarium; and Idaho State University, Biology Department.

For detailed information visit the INPS website <http://www.idahonativeplants.org> or contact Janet Bala at (208) 282-2815 or email balajane@isu.edu.

Theme: Back to Basics in Field Identification

All plant aficionados who want to learn more about native plants in Southeast Idaho and improve their field identification skills are encouraged to attend.

Professional botanists from Idaho and surrounding states will speak on topics including:

- virtual field trips through Idaho, Montana, Wyoming and Utah
- how the Idaho Natural Heritage program determines the status of rare plant species
- how the Intermountain Herbaria are collaborating to make collections data more available
- keying workshops on plant families Poaceae (grasses) and Asteraceae (sunflowers)
- research and informational posters from area botanists (all registrants are invited to contribute)

H. Wayne Phillips, author of “Plants of the Lewis & Clark Expedition” and “Central Rocky Mountain Wildflowers”, will give the keynote address “**Wild Orchids of Idaho and Montana**” Tuesday night 8 pm.
