

Home Grown Idaho's Endemic Plant Species

Michael Mancuso Botanist and INPS President

Presentation: Many people do not realize there are plants found in Idaho and nowhere else in the world. These Idaho endemics represent a unique part of the state's biological heritage. Every Idaho endemic plant species has a story to tell. Learn some of these stories during this presentation.

Biography: Michael has over 30 years of experience with the Idaho flora, first as a botanist for the Idaho Department of Fish and Game's Conservation Data Center and later moving on to freelance botany work. Michael has a M.N.S. degree in Biology with a concentration in botany from the University of Idaho. He is currently president of the Idaho Native Plant Society.

7:00 pm PDT, Thursday April 20, 2023

**Join us in the Lecompte Auditorium on the 2nd floor of the
1912 Center in Moscow, Idaho**
